Lorina A Galvez, PhD

Department Head

DFST-VSU

Baybay City, Leyte

Dear Ma'am,

I am Mr. Jubymar Mabuto, a licensed chemist practitioner. Currently working here at Baybay City Water District as Laboratory Technician. A former OFW now residing here in Baybay. Prior to returning, I did work in the Kingdom of Saudi Arabia as a Chemist for a Material third-party laboratory. As a third-party lab, we handle various samples for chemical quality evaluation mostly water for municipal, raw, and product water from water factories. I have a combined more than 10 years of chemical quality assurance and quality control experience. After 7 years working, I have decided to return due to the pandemic which affected the company. I have a short stint as a Part-Time Instructor at Southern Leyte State University (SLSU) –BONTOC.

I understand that the Department of Food Science and Technology is looking for an Instructor 1. Hence, for this reason, I wish to apply if given that opportunity.

I am confident that I can deliver the work very well. Thank you.

Sincerely,

Mr. Jubymar A. Mabuto, RCh
