

JERICO T. GLORIA, RChT

Registered Chemical Technician

ABOUT ME

Shaped by the challenges of the pandemic and grounded by a strong academic foundation from Visayas State University, I bring a mindset of resilience, adaptability, and quiet determination. As a Chemistry graduate who thrives under pressure, I take pride in doing the work others might overlook—willing to take on any role where I can contribute meaningfully. Whether in the lab, in the field, or behind the scenes, I approach each task with discipline and sincerity. I am also a licensed Registered Chemical Technician, ready to serve, especially in roles within public service where impact truly matters.

KEY OBJECTIVES

- Integrity
- Ethics
- Leadership
- Hard working
- Continues improvement
