Dr. Deejay M. Lumanao

Department Head

Department of Soil Science

Visayas State University

Visca, Baybay City, Leyte,

Dear Dr. Lumanao:

I am writing to express my interest in the part-time instructor position at the Department of Soil Science (DSS). I graduated last 2015 with a Bachelor's degree in Chemistry and gained 28 units (MS academic subjects) in Master of Science in Soil Science from Visayas State University.

During the last semester, I had the privilege of serving as a part-time instructor at DSS. One of the most rewarding aspects of my experience was witnessing the growth and development of my students, both academically and personally. I strived to create a supportive and inclusive learning environment where all students felt encouraged to participate and excel.

For around eight and a half years, I have worked as a science research assistant at VSU-CASL. My abilities and expertise, particularly in various types of analyses, have improved greatly as a result of my professional experience. I was also exposed to relevant trainings, locally and internationally especially in using different instruments in the laboratory.

Having studied and worked at a university, reinforced my passion for education and strengthened my commitment to fostering an inclusive and effective learning environment. I am eager to bring these experiences and skills which can surely benefit the students.

Thank you for sparing your time to read my application. I sincerely hope you will give this some thought, and it would be my pleasure to participate in an interview at the time that suits you most.

Respectfully yours,

Juvylyn G. Niegas
