00072 Purok Petchay, Bagtican, Maasin City, So. Leyte

Objective

Seeking the position of Science Research Specialist for the Barangay Integrated Development Approach for Nutrition Improvement (BIDANI) program to apply my academic knowledge and research experience in agriculture and nutrition improvement. Aiming to utilize effective strategies and innovative, science-driven approaches to support community development and contribute to the advancement of the local agricultural sector and nutritional challenges.

Skills and Experience

- Proficient in key areas of agriculture, including crop science, soil science, crop protection, animal science, agricultural economics and marketing, and agricultural extension and communication, with specialized expertise in animal breeding and genetics.
 - Experienced in implementing animal production and management practices, with a strong focus on poultry production.
 - Adept at conducting in-depth research, including developing research proposals, writing theses, evaluating literature, and synthesizing findings to support project goals.
 - Competent leader with an established history of directing a variety of organizations and the institution administration; adept at fostering collaboration, encouraging open communication, and effectively resolving conflicts in order to attain outstanding outcomes.
-
