

LETTER OF INTENT

July 27, 2023

EUSEBIO R. LINA JR.

*Department of Head
Department of Mathematics
Visayas State University
Visca, Baybay City, Leyte*

Dear Sir,

A day full of peace to you!

I am interested to apply as a Mathematics Instructor for 2023 – 2024 academic year.

I took up the degree of Secondary Education major in Mathematics at Cainta Catholic College, Cainta, Rizal and a humble scholar of the Congregation of Sisters of St. Ann. I am a former student teacher in Benjamin B. Esguerra Memorial National High School (BBEMNHS), Taytay, Rizal and an Academic Achiever Awardee and Best in Demonstration Teaching in Mathematics.

My experience as a student teacher in BBEMNHS allows me to witness the real world of teaching diverse learners and engage them in learning. Using teaching methods that coincide with the curriculum, providing high interest learning materials, multiple means of assessment and instruction, as well as careful modeling and scaffolding of new skills that every student can achieve.

In addition to believing that every student deserves and can achieve success, I am passionate and want to inspire students to prepare for the globalized world that they will undoubtedly face as they grow to be adults. My lessons utilize all technology that is available, giving my students an education in common technological uses including professional writing and presentations, problem solving, data analyzing, and proper communication. Students are also encouraged to use and create models, realia, and other similar activities as part of their authentic learning experience which engages them in the subject matter and teaches valuable real-world skills.

I look forward for your positive response to further discuss my qualifications as a Mathematics instructor in your department. Thank you for your time and consideration. To God be all the glory and honor!

Respectfully yours,

EDILYN P. CORRALES
