MARK RYAN R. TRIPOLE
Department Head
Department of Pure and Applied Chemistry
Visayas State University
Visca, Baybay City, Leyte

Dear Sir:

My previous experience as a part-time instructor in the Department of Pure and Applied Chemistry has proved to be a great learning opportunity through teaching. That experience has given me confidence and I have learned new strategies to deliver lessons more effectively.

I am writing to show interest in applying for the part-time instructor position in this department. I believe that with the new ideas learned from my previous experience, I could share my inherent curiosity with students which would help them appreciate the subject more; and still be an active listener to foster a student-centered and dynamic learning environment.

With the issue of the declining interest in science among young Filipinos, I am excited about this opportunity to help their appreciation of the subject grow; especially the application of Chemistry in their chosen future professions.

I have attached my resume and would happily provide any additional information you require. Thank you for considering my application, I am looking forward to any opportunity to show you how I can be suited to be a part of your teaching staff.

Respectfully,

DANN CARYL R. VASQUEZ
