MARK RYAN R. TRIPOLE  
Department Head  
Department of Pure and Applied Chemistry  
Visayas State University  
Visca, Baybay City, Leyte

Dear Sir Tripole,

Good day!

I am writing to you to express my interest for the Part-time Instructor position posted on your department's Facebook page. I am a PRC Licensed Chemist and holder of a Bachelor of Science in Chemistry degree from Visayas State University, proudly hailing from the Department of Pure and Applied Chemistry. My academic journey has given me a comprehensive understanding of chemical principles, laboratory techniques, and research methodologies.

Currently, I am a QA Specialist at Monde Nissin Corporation, where I apply my chemistry knowledge in an industry setting. This role has provided me with valuable insights into practical applications of chemistry and experience in problem-solving, project management, and teamwork. These skills are directly transferable to a teaching position and will enhance my ability to provide real-world examples and applications to students. Additionally, my experience as an online chemistry tutor during my undergraduate studies honed my ability to communicate complex scientific concepts effectively and foster a supportive learning environment. Through my tutoring roles and industry experience, I have developed essential teaching skills, including:

1. Clear Communication: The ability to explain intricate chemical concepts in an accessible and engaging manner.
2. Student-Centered Approach: A commitment to adapting teaching methods and in designing innovative learning materials that integrate traditional and modern technologies to meet the diverse needs of students, ensuring they achieve their academic goals.
3. Enthusiasm for Science: A passion for chemistry and scientific discovery that I would share with students to inspire their interest and curiosity.
4. Adaptability and Empathy: Thriving in diverse environments and roles by being flexible and open to change. And practicing empathy by contributing to a supportive and inclusive work environment.

I am committed to maintaining a high level of professionalism, integrity, and a zealous pursuit of excellence in my role. I ensure that my actions align with ethical standards and benefit the public. My commitment to education is evident in my ability to apply educational theories to enhance learning experiences, promote Filipino values, and implement effective technology strategies to improve service delivery. I am eager to bring my skills and passion to DoPAC, give back to the place that honed my passion for science, and contribute to your team's success.

Thank you for considering my application. I look forward to the opportunity to discuss how I can be an asset to your organization.

Sincerely,

Frances Nicole S. Espinosa  
Applicant
