DR. ROMEL B. ARMECIN

Director, EcoFarmi
Visayas State University
Visca, Baybay City, Leyte

Dear Dr. Armecin,

Good day!

I heard that your respective institution, Ecological Farm Resource Management Institute (EcoFarmi) is looking for a qualified Animal Science faculty. In connection with this, I will submit the requirements for the faculty position.

I am Jerome O. Arribado, an Animal Science graduate from Visayas State University, Main Campus with a postgraduate degree in Animal Science, minor in Agricultural Extension. I'm a licensed agriculturist and have 3 years of work experience. Through hard work and dedication, I was able to finish my bachelor and graduate studies that gave me the opportunity to hasten my knowledge and skills on the field of Animal Science. In my previous work, I value a strong work ethic and good interpersonal relationships, with my students, coworkers and employer, so I can be effective in every assignment and tasks given to me. Currently, I am working as a part-time instructor at the Department of Animal Science, Visayas State University, Main campus.

On behalf of this, I am interested to serve in your institution as an instructor and to impart my abilities to teach students in animal related sciences, at the same time conduct research and extension services. My trainings have equipped me to be prepared during actual field work and to conduct laboratory analyses when needed. I can work well with less supervision and adapt to a new environment, whilst I have a positive outlook in life and always happy to work with a variety of people and personalities.

In case you require further information regarding my credentials, Curriculum Vitae (CV) and Transcript of Records, I had enclosed them along with this application. For my contact details, you can contact me by the following: +639306768674; +639307033197; arribadojerome22@gmail.com.

Thank you very much.

Sincerely,

JEROME O. ARRIBADO
