Sir,

*Greetings of Peace!*

It's been a while that my teaching career was set aside for the purpose of taking care of my two children. I think this is the time for me to practice my profession as a teacher, for technology as my field of specialization, to basic, content and elective courses and professional education courses as well.

I am writing this to you to express my intention, applying for a teaching position at the Department of Teacher Education, Visayas State University for the following subject/s: **Educational Technology / Technology in Teaching; Professional Education, ICT and Science courses**. I may also apply as subject teacher for **ANY** subject which seems to be not related to my qualifications.

Currently, I am pursuing the degree Master in Technician Education at Samar State University, Catbalogan City, where I suppose to earn 16 units at the end of the semester. Please see attached enrolment forms as the basis of my ongoing graduate study.

I am 24 years old, from Catbalogan, a Licensed Professional Teacher and a man known with morale and reputation.

It was on June 2019 when I was hired as substitute teacher for Junior High School and continued from October to December 2019. Upon assumption of duty, I was selected as ICT coordinator, to collect, consolidates and submits students' and school data to the Division Office.

To show my enthusiasm to research and technology innovation, we received recognition from our department, College of Education for the publication of our undergraduate study entitled "Electrochemical Gas Leak Detector with Automatic Alarm System" on the Research Journal for the school year 2017-2018.

Nevertheless, I am wishing all the best on this regard, my intention to serve the institution, impart knowledge and skills to students and for a successful journey in the future.

May God bless us all!

Sincerely yours,
