**VISAYAS STATE UNIVERSITY**

**Department of Pure and Applied Chemistry**

**Visca, Baybay City, Leyte**

**RE: Part-Time Instructor**

**Dear Dr. Quevedo,**

Upon crossing a job opening for a Part-Time Instructor position posted on the VSU jobs website, I was eager to apply with strong interest. The moment I reviewed the job description, I was excited to see how well my experiences and qualifications align with the department's needs and position requirements. I completed my Bachelor's degree in Chemistry at this institution and obtained my Chemical technician license in 2018.

Last semester, I had the privilege of teaching Chemistry and related subject at this same department, where I successfully conducted lectures, facilitated laboratory classes, and provided one-on-one assistance to students. This experience has significantly enhanced my teaching styles, enabling me to cater to a wide range of students more effectively. In addition to my teaching background, I bring valuable knowledge and skills gained from over three years of industry experience. Throughout this time, I've developed strong analytical thinking skills, meticulous attention to detail, and effective communication skills. These competencies are essential for teaching both laboratory and lecture subjects, which demand hands-on instruction, data analysis, and critical thinking. Furthermore, my practical industry experience allows me to provide students with valuable real-world examples and practical applications. This capability enables me to effectively bridge the gap between theoretical concepts and their practical implementation, enhancing the overall learning experience for students. I believe that my educational background, relevant experience, and extensive training make me a qualified candidate.

Thank you for considering my application. I have attached additional documents for your perusal. I look forward to the possibility of once again contributing to the success of the department. I am available at your earliest convenience for an interview and can be reached at +639217089646 or via email at anjingcasman@gmail.com.

Sincerely,

**Angelica C. Managbanag**
