**DR. EDGARDO E. TULIN**

*University President*

Visayas State University

Baybay City, Leyte 6521

Dear Sir:

I am a graduate of Philippine Normal University with a degree of Bachelor of Science in Physics for Teachers and currently taking MS Applied Physics Major in Medical Physics at University of Santo Tomas – Graduate School. I am hoping to apply as a Part time Science Instructor in your University. I am very interested and passionate in the field of science and would welcome the opportunity to contribute my undergraduate and graduate studies writing and public speaking skills, and experiences to your respective institution.

In addition to my concentration in Physics, I have also attended seminars which is related or might be helpful to your office which includes my participation on the Philippine Conference for Medical Physicists for 2020-2021 and my National Certificate II on Electronics Products Assembly and Servicing. My academic work has strengthened my research, public speaking and writing skills. Working as a teacher, academic coordinator and assistant office secretary gave me the experience and confidence to work in a dynamic, fast-paced organization where learning quickly are instrumental to success. My experiences both as a student and a teacher taught me how to become a person inside a working area with my colleagues. And I believe that your office would give me opportunity to learn more things in my chosen field and could hone my skills further.

Whatever positions you may give, I am most fulfilled when contributing to the department in my best of my ability. Thank you for your consideration and hoping for your affirmative response.

Yours respectfully,

**CRISTINE M. CANDELARIA**
