HONEY SOFIA V. COLIS
Director, HRMO
VSU, Baybay City, Leyte

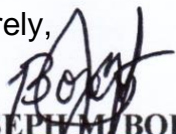

Good Day,

I am Joseph M. Boren from Palo, Leyte, a graduate of BS in CHEMISTRY, and I successfully passed the Chemistry Licensure Examination (Registration on-going) last October 2024 and the Chemical Technician Examination. I found this job opening on Facebook page. I am interested in the position Science Research Specialist I Plantilla Item No. SRAA1-8-1998. I am willing to be trained, learn and grow in this field. I am a quick learner with a strong commitment in understanding labor standards and regulations.

During my undergrad studies, I conducted a research project title called "Phytochemical Analysis and Larvicidal Activity of Santol Leaves Extracts", where I developed my skills in laboratory analysis and research methodologies. I performed Spectrophotometer Analysis, Rotary evaporation, Centrifugation, Distillation and Soxhlet extraction. My internship at Pepsi Cola Tanauan also provided me with hands-on experience in conducting various chemical analyses and operating laboratory equipment. I also had experience in wastewater treatment plant and water treatment plant. I have conducted alkalinity tests, chlorine tests, TSS. I can also master new skills quickly and apply them properly.

I've attached my resume, Personal Data sheet, PRC license and TOR which further details my skills and educational background. Please do not hesitate to reach out if you have any questions about my background. I look forward to the opportunity to speak with you further; thank you for your time and consideration.

Sincerely,

JOSEPH M. BOREN
Applicant
