EDGARDO E. TULIN, Ph.D.

University President
Visayas State University
Baybay City, Leyte

Dear Dr Tulin:

Greetings!

I have been recently informed that your office is opening a teaching job opportunity for Food Technology graduates. In connection with this, I would like to indicate my interest for the Instructor I position or any position commensurate to my skills and background.

I am a graduate of the Visayas State University and hold a Master's Degree on Food Science and Technology. I worked as an Instructor at the Tarlac Agricultural University from June 2014 to December 2018. I was also designated as Assistant Director for Rootcrops Research and Training Center from November 2016 to December 2018 and as Project In-charge for rootcrops processing at the said Center. With the aforementioned designations, I was able to improve my instruction as well as project management skills. I also had previous experience as a Science Research Assistant at the Philippine Rootcrop Research and Training Center.

All these experiences taught me to be patient and to strive to complete my tasks on time. I am looking forward to the chance to be able to further my knowledge and at the same time share it to those with the same passion for food science as I am.

Additional qualifications, experience and skills can be found in my accompanying Curriculum Vitae. I look forward to hearing from you about this application. Please feel free to call or text my mobile phone number +639233965800. You can also reach me at algin_17@yahoo.com.

Sincerely yours,

ALGIN V. GOROY

Applicant
