Department Head
Department of Plant Breeding and Genetics
Visayas State University
Visca, Baybay City, Leyte 6521

Dear Dr. Sanguillosa,

I am writing this letter to express my intention to apply for the part-time instructor position in your esteemed department for the upcoming second semester. Having served as a part-time instructor during the first semester, I deeply appreciated the opportunity to contribute to the academic growth of the students and to learn from the supportive environment fostered by the department.

This semester, I am eager to expand my teaching contributions by taking on Agricultural Botany. My educational background in the BS Biology Program included a similar subject matter, equipping me with the foundational knowledge and perspective to effectively impart key concepts and inspire curiosity in students. I am confident that my experience and passion for teaching will enable me to engage students in meaningful learning experiences.

What particularly draws me to continue my journey with the Department of Plant Breeding and Genetics is its strong academic foundation and the nurturing attitude of its faculty. During my previous tenure, I gained valuable insights into teaching methodologies, and I believe that an extended association with the department will allow me to further refine my skills while making a positive impact on the students' academic journey.

Enclosed with this letter is my resume subject for your review. I am looking forward to the opportunity to contribute to the academic excellence in your department once again. Thank you and God bless!

Sincerely yours,

JOHN RAPHAEL P. CAMBA
