Epifania G. Loreto
Department Head
Department of Civil Engineering
Visayas State University
Visca, Baybay, Leyte

Dear Ma'am,

Warm Greetings!

It is my earnest desire to be a part of the Department of Civil Engineering of VSU as one of the faculty members. I have finished my Bachelor's Degree in Civil Engineering at Visayas State University and I passed the Licensure Examination for Civil Engineers on November 10-11, 2018. I've taught as a part-time lecturer at the EVSU Main Campus from August 2021 to June 2022. I delivered lectures on Engineering Math, Construction Management, and Engineering Design to Architecture and Civil Engineering students.

Teaching has always been my passion and I hope that my belief of learning as a never-ending process and my desire to partake my knowledge would be enough for you to consider my application.

Thank you for taking the time to review my application and I am looking forward to the opportunity of meeting with you and discussing how I can contribute to the university and its objectives.

Sincerely,

Tracy Bation
