Magdalene C. Unajan  
Department Head  
Department of Computer Science and Technology  
Visayas State University  
ViSCA, Baybay, Leyte

Dear Ms. Unajan:

I am interested in the Instructor I position posted on the VSU HRIS website. The minimum qualifications require the applicant to be a MSCS/MCS/MSIT/MIT graduate, or with MS units, but currently I only hold a BSIT degree, though I plan to pursue M.Sc. in Computer Science. I offer my knowledge and skills from working in a relevant field in the industry and my recent academe experience to contribute to the roadmap of the institution and to complete the tasks assigned to me.

In my previous job, I understood the importance of adapting to the changing financial climate to deliver cost-efficient products without compromising the quality.

At the Department of Computer Science and Technology, I was able to use existing resources to create additional learning resources to students. I'm proud to guide my students, especially the ESci 126a class, as they were all able to present promising projects using what they learned in the class.

I am active in the development of proprietary and open-source projects, and publishing my technical experiences online. It enables me to learn new technologies while also improving my writing and communication skills. I will be pursuing M.Sc. in Computer Science in the CIT-U, if admitted this incoming school year, as I see the importance of formal education and professional guidance.

In relation to the job posting, I intend to continue my service in the academe, so I can still able to share my knowledge, skills, and expertise to prepare the students and to help them earn the right skill set and attitude before graduating. Please email or call me to set up an interview. I look forward to hearing from you.

Sincerely,

  
Rodney M. Maniego Jr.
