DR. JAMES A. PATINDOL

Head, CASL
Visayas State University
Visca, Baybay, City, Leyte

Subject: Application for Science Research Specialist II Position

Dear Dr. Patindol:

I am writing to express my interest in the Science Research Specialist II position at the Central Analytical Services Laboratory (CASL) – VSU. I recently passed the October Chemist Board Exam and have earned 21 units of academic coursework in the Master of Science in Soil Science program at Visayas State University (VSU), Main Campus.

I have over eight years of experience as a Science Research Assistant at CASL, where I developed essential skills in laboratory management and operations. My participation in various local and international training sessions and seminars has further enhanced my expertise. Additionally, my exposure to advanced laboratory equipment at CASL has made me highly adaptable to new technologies and efficient in troubleshooting issues.

In addition to my technical experience, I served as a part-time instructor in the Department of Soil Science at VSU while pursuing my graduate studies. This role allowed me to deepen my knowledge of soil, organic, and plant tissue analysis. My experiences, both inside and outside the laboratory, have strengthened my ability to contribute effectively to the academic community and laboratory operations.

Beyond technical skills, I have cultivated a positive attitude characterized by cooperation, confidence, diligence, and a strong work ethic. I am confident that these qualities, along with my experience, will enable me to make meaningful contributions to the CASL team.

Thank you for considering my application. I have attached my relevant documents for your reference and would be honored to discuss my qualifications further in an interview at your convenience.

Sincerely,

Juvylyn Glory Niegas
Chemist 0016086
