DR. ROMEL B. ARMECIN

Director

National Abaca Research Center

Visayas State University

Visca, Baybay City, Leyte

Dear Dr. Armecin,

I am writing to express my interest in the Laboratory Technician I position at the National Abaca Research Center (NARC), Visayas State University (VSU), as advertised. With a degree in Agriculture and seven years of experience in soil analysis and laboratory procedures, I am confident I can significantly contribute to your team.

During my time as a Science Research Assistant at NARC, I was responsible for preparing soil and plant tissue sample, conducting chemical and physical tests, and data analysis. I am proficient in laboratory procedures and equipment relevant to soil and plant analysis, particularly with abaca and related crops. My experience at NARC has provided me with a deep understanding of the center's goals and the importance of accurate and reliable laboratory work in achieving those goals.

I am eager to continue contributing to NARC's mission in a more focused role as a Laboratory Technician I. I am confident that my existing knowledge of NARC's protocols and my experience can make me a strong candidate for this position. Thank you for considering my application. I look forward to hearing from you soon.

Sincerely,

MARY JANE M. DAYONDON
