Passion for Learning and Growth

SUMMARY

I am a dedicated individual who has experienced various roles, including sailing through Europe as a seafarer and acquiring valuable skills in navigation, emergency response, and ship security. After an accident at sea, I transitioned to pursue a career in education, recognizing it as my niche. During my gap years, I delved into interests such as geopolitics, history and space exploration while also focusing on personal growth, self-discovery and Mandarin language learning.

EDUCATION

2024 (Expected)

EASTERN VISAYAS STATE UNIVERSITY - ORMOC CITY CAMPUS, DIPLOMA IN TEACHING SECONDARY
