JOHN CHRISTIAN L. GAVIOLA

Department Head
Department of Civil Engineering
Visayas State University
Visca, Baybay City, Leyte

Dear *Engr. Gaviola*,

I am writing this letter to express my keen interest in the Part-time Instructor position at the Department of Civil Engineering, Visayas State University. I hold a Bachelor's Degree majoring Structural Engineering, which I completed in August 2023, and passed the licensure examination in April 2024.

Working in the construction industry for almost a year, I have gained practical insights and hands-on expertise in project management, planning & scheduling, quality assurance, and site safety protocols. My role as a Site and Project Engineer allowed me to work on diverse projects where I applied my engineering knowledge to solve real-world challenges, ensuring compliance with both technical and safety standards. This unique blend of practical experience and academic training that I have learned will be valuable in bridging theory and practice in the classroom.

I am dedicated to creating a classroom environment where students develop both their technical abilities and their capacity for critical thinking. By drawing on my experience in the field, I aim to connect theory with real-world applications, helping students gain a clearer understanding of engineering concepts and preparing them for the challenges they may face in their careers.

I'd be glad to talk more about how I can contribute to the department and share my experience with the students.

Thank you very much.

Sincerely,

Joseph Napoles
