Dr. Luz O. Moreno

Department of Plant Breeding and Genetics

Visayas State University

Baybay City, Leyte, 6521

Dear Dr. Luz O. Moreno,

I am writing to express my sincere interest in the Instructor position at the Department of Plant Breeding and Genetics, as advertised. As a recent graduate of Visayas State University with a degree in BS Agriculture major in Plant Breeding, I am eager to apply the knowledge, discipline, and dedication I have developed throughout my academic career in a professional environment.

While I may not yet have formal industry experience, my education has provided me with a strong foundation in plant breeding, genetics, and crop science, along with practical skills in laboratory techniques, fieldwork, and data analysis. Beyond academics, I have actively engaged in research projects, including embryo rescue, pollen viability testing and stomatal study at the National Coconut Research Center - Visayas, and contributed to student-led activities and scientific seminars, which have sharpened my skills in communication, collaboration, problem-solving, time management—all of which are critical in both academic and research-driven environments.

What draws me to the Department of Plant Breeding and Genetics is its reputation for academic excellence, research innovation, and its deep commitment to developing future leaders in agriculture. As someone who has personally benefited from the mentorship and instruction of dedicated faculty, I am especially inspired by the department's role in shaping students through hands-on learning and scientific inquiry. I am enthusiastic about the opportunity to give back to the same academic community that has shaped me, and to grow alongside a team of educators who are committed to both academic and student development.

I am highly motivated, quick to adapt, and committed to continuous improvement. I welcome the opportunity to prove my potential and grow with an organization that values initiative, fresh perspectives, and a strong work ethic.

Thank you for considering my application. I would be grateful for the opportunity to discuss further how my background and passion can add value to your team. I am available at your convenience and can be reached at 09125912524 or [ejadakelly@gmail.com](mailto:ejadakelly@gmail.com).

Sincerely,

Kelly Kaye O. Ejada
