Dr. Cheryl C. Batistel
DBS Department Head
Visayas State University, Baybay
VISCA, Baybay City, 6521 Leyte

Dear Dr. Batistel,

I am writing to express my interest in the part-time instructor vacancy posted on the VSU job portal. With my experience during the previous semesters, I am confident to say that I'm a suitable candidate for the job.

Marking my one year experience as a laboratory instructor for a number of biology courses, I have further developed and improved my communication skills increasing my ability to deliver lectures and facilitate discussions effectively. I have managed as well as adapted to a number of students which allows me to craft activities that spark curiosity, critical thinking, and a collaborative learning environment. Outside the teaching position, I have continuously immersed myself in research opportunities within and outside of the department, allowing me to stay updated with the latest trends and developments in the field of biology and stay current with the best practices in education while at the same time developing my teaching and research skills

Prior to my teaching experience I believe that the transferable skills I've learned from my previous jobs will continue to assist me for further development and growth in the field of education.

Beyond my work experience, I am a detail-oriented individual and have a knack for creativity. I am adaptable and teachable, making me well suited for the job and I believe that my qualifications and experience will continue to make a positive impact and growth to the department.

Thank you for your time and consideration, for further inquiries regarding my qualifications please do not hesitate to reach out via my personal email address louisninocabanero@gmail.com or via my personal number 0998 312 0296.

Respectfully
Cabanero, Louis Nino. C.
