Dr. Manuel D. Gacutan Jr.
Department Head
Department of Animal Science
Visayas State University
Visca, Baybay City, Leyte

Dear Dr. Gacutan,

I am writing to express my keen interest in the Part-Time Instructor position at the Department of Animal Science, Visayas State University. As a recent graduate with a Bachelor of Science in Agriculture, majoring in Animal Science, I am eager to contribute to the department's strong reputation for academic excellence and impactful research.

My studies have developed a strong understanding of animal production principles, specifically in animal breeding and genetics. Through my participation in national scientific meetings and my recent attainment of a license in agriculture, I have honed my ability to apply theoretical knowledge in practical settings. These experiences have prepared me to provide students with engaging and effective learning experiences.

I am passionate about creating an engaging learning environment for students that promotes critical thinking and active participation. Through my previous experiences, I have successfully employed innovative teaching strategies, such as case studies and laboratory experiments, to enhance student comprehension and engagement.

Furthermore, I am enthusiastic about contributing to the department's research initiatives. My current research interests in farm animal genetic resources align seamlessly with the department's mission to advance knowledge in Animal Science and its applications in sustainable agriculture. I am particularly eager to collaborate with faculty and students on impactful research projects.

I am confident that my dedication, collaborative spirit, and strong work ethic would make me a valuable asset to the department. I welcome the opportunity to discuss how my qualifications and aspirations align with the needs of the department.

Sincerely,

Erik John Putan, L.Agr.
