**MR. DHENBER C. LUSANTA**

OIC-Director, Eco-FARMI

Visayas State University

Visca, Baybay City, Leyte

Dear Sir,

Warmest greetings!

This is to signify my intension to apply for any vacant position I am qualified and fit in the Ecological Farm and Resource Management Institute.

I am Jackson Abelardo Bellen, Agricultural and Biosystems engineer, a 2012 graduate of Visayas State University BSAE program and currently pursuing Master of Science in Agricultural and Biosystems Engineering at the University of the Philippines Los Baños working in saltwater intrusion study.

My previous jobs were in teaching agricultural and biosystems engineering courses in Mindoro State University and Visayas State University. Currently I am working in DENR Provincial Office in Oriental Mindoro as Database Management Information Technology Specialist. As an agricultural and biosystems engineer, I am well versed in computer application such as CAD, GIS and Office applications.

I believe that being part of Eco-FARMI and Visayas State University in general will contribute a lot in my professional career as an engineer, educator and researcher.

I hope that my expertise as an agricultural engineer, especially in land and water resources engineering, and my willingness to learn are enough to consider me to be part of your office.

Attached are my pertinent documents for your perusal and reference.

Thank you and God bless!

Respectfully yours,

**ENGR. JACKSON A. BELLEN**

Applicant
