SEAN O. VILLAGONZALO

Head, Information and Communication  
Technology Management Center

Visayas State University  
Visca, Baybay City, Leyte

Dear Engr. Sean,

I am writing to express my interest in the Computer Programmer I position at the Information and Communication Technology Management Center of Visayas State University. With a Bachelor's degree in Computer Science and substantial experience as a Computer Programmer, I am eager to bring my skills to your team.

My career began in 2014 with a focus on computer programming and GIS. Notably, I assisted in the development of the RDEMIS for research centers, which included integrating HRMIS workflows and analyzing data under the MIS project. I also played a key role in the initial development of the RDMIS (KMIS) systems for ViCARP, which is still ongoing.

Currently, as a GIS Expert at VSU, I contribute to the Land Use Development and Infrastructure Plan of the university. My strong programming background, combined with my experience in GIS, equips me well for this role.

Thank you for considering my application. I look forward to discussing how my programming experience can benefit your team.

Respectfully,

  
MITCH ALLAN A. HABOC
