## Personal Skills and Competences

- **Speaks fluent Tagalog and English.**
  - **Good intercultural communication skills.** I have experienced studying, working and learning with various nationalities like Japanese and Germans during my university years at The Institute of Tropical Ecology and Environmental Management mobility period.
  - **Trained with foreign volunteers** during “International Volunteers’ Training on Rainforestation.
  - **International volunteer training.** I was one of ten VSU students who passed the screening as a participant for the international training in the university. The Institute of Tropical Ecology and Environmental Management (ITEEM) together with the Institute of Environmental Rehabilitation and Conservation (ERECN) from Japan held an International Volunteer Training. This training primarily aims to expose the 10 Japanese trainees and 10 VSU students to the Philippine’s strategy in addressing the impact of global warming. Moreover, this training led to a better connection to international institution in preparation for our future.
  - **Good Communication skills.** I was able to interview different people from different locality during my study, volunteer work and thesis study. Through these interviews, I was able to understand the real essence of active listening and open-mindedness. Furthermore, I have learned to express my thoughts and emotions without compromising ethics, morals, and values.
  - **Good time Management skills.** In the beginning, balancing my time for studies and side job became a challenge. Finally, I was able to juggle school and earning money to finance my bachelor’s and master’s degree. I still juggle things and multi-task from time to time. But through experiences, I have learned to understand my goals and prioritize wisely.
  - **Explorer.** I was able to visit different islands in Leyte for research purposes. At the same time had the opportunity to see and appreciate the beauty of nature.
  - **Special Skill.** Certified Professional Association of Diving Instructors (PADI) Open Water Diver.
  - **Computer Skills and Competences.** Competent with Microsoft Office programmes and some experience with Quantum GIS and SPSS.
