Dear Sir/Maam,

Application for a Teaching Position

Peace and all good to you!

Please consider this my application letter for a teaching position in your institution. As my resume reveals, I graduated from Our Lady of La Salette College Seminary with a BA degree in Philosophy in Silang Cavite. I am currently pursuing Master of Arts in Philosophy in the University of San Jose – Recoletos.

I believe that this position would provide me great opportunities to enhance and develop my abilities and skills in teaching as my chosen career. I will be more grateful if you would give me another chance to share my knowledge, skills and ability I learned and developed during my 5-month work experience in this institution to the students enrolled. Also, I do not just want to impart knowledge for the sake of the students' academic purposes, but to teach them the relevance of education in life. I feel confident and qualified to take all the challenges that teaching offers.

I have the ability to work hard with passion, good quality, patience and creative style of teaching.

Attached file is my resume for further reference. I look forward to an opportunity to further discuss with you my qualifications. I will be happy to provide any additional information if needed. Thank you for your time and consideration.

God bless you.

Sincerely,

Jie Romen Lim
