

**Dr. Edgardo Escuadra Tulin**  
University President  
Visayas State University

Dear Sir,

I am expressing my intent to apply for the position as **Instructor I (Mathematics)** at Visayas State University.

I have just returned from the United States of America last June 2020 after working under J1-Visa as a secondary school teacher in a public school for three years in the State of California from Academic Year 2017-2018 to 2019-2020. Presently I am a Part-Time Lecturer at Eastern Visayas State University - Tanauan Campus.

My homecoming was motivated by my many factors. Foremost is the pandemic and my innate desire to go back to the rural areas of Leyte where I can share my global experiences and mold the minds of my students and colleagues – things that money cannot buy which are inherently essential as the French author Antoine puts it: “What is essential is invisible to the naked eye.”

It is my fervent desire to go back to my position as a teacher and pick up the promises where I have once sowed before my three-year sojourn in the West.

Attached are my related documents for your perusal.

Sincerely,

Leo M. Morbos, Ph.D.
