**LILIAN B. NUÑEZ**

Project Head

Barangay Integrated Development Approach for Nutrition Improvement

Visayas State University

Visca, Baybay City, Leyte

Dear Ma'am:

Greetings!

I am Devone G. Baradillo, I saw an announcement about the recent vacant position in your respective office through the VSU Job posting. I am expressing my intention to apply for a position of Science Research Specialist I. I am graduate of Bachelor of Science in Development Communication and previously employed from a research based project: ACIAR Forest Landscape Restoration Project funded by the Australian Centre for International Agricultural Research (ACIAR) located at the College of forestry and Environmental science, Visayas State University.

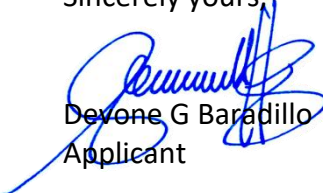

In my previous work, I am a Science Research Assistant, I do field works in remote project sites. I engaged with local people's organizations established by the DENR. I conducted surveys and data collection in connection to scientific field trials. And also led in organizing workshops for capacity development to partner people's organization. Last April, our ACIAR Forest Landscape restoration Final report was published by ACIAR Canberra, main office.

Today, I am currently employed in a reforestation project named Project Tarsier located at the College of Forestry and Environmental Science, Visayas State University. Which I held a position of a Administrative Assistant II for HSSE (Health, Safety, Security, and Environment).

If accepted, I believe my previous learning gained from research projects will be applied. Please feel free to contact me if you have some questions about my application. You can reach me anytime thru SMS or thru Email.

Thank you very much and more power to your Office.

Sincerely yours,

Devone G Baradillo  
Applicant
