

03 July 2020

Director for Administration and Human Resource Development Office
Visayas State University
ViSCA, Baybay City, Leyte

Dear Sir/Ma'am:

Good day !!!

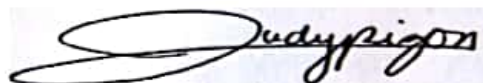

My name is **Judy Rosanne Roces Pizon**, 22 years of age and a graduate of Bachelor of Science in Agricultural Engineering at the Visayas State University, ViSCA, Baybay, Leyte. I was a native of Matalom, Leyte but currently resided in Ormoc City due to my volunteer work with local civil society organizations specifically the children, youth, women and farmer sectors in relocation sites for Typhoon Yolanda survivors. As a fresh graduate, I am interested to integrate with the rural farmers as they are the source of lives among Filipinos being food producers and thus should be well-supported. My exposure at AGREA Farm, Marinduque where I completed my internship made me optimistic to apply as a Research Assistant.

The different tragedies that we are experiencing in our country are very awakening for a citizen like me who intends to develop agriculture in order to support the need of the rural farming communities. I believed that an intergenerational approach to development (link of knowledge among young and adult farmers through stories) is necessary to help alleviate poverty. With my long experience being a member of farming family and the knowledge and skills I acquired from my academic years, I can assure that I can be of help to you.

Please find attached CV/Resume and Transcript of Records for your perusal.

Thank you very much.

Very truly yours,

JUDY ROSANNE ROCES PIZON
