MARK RYAN R. TRIPOLE

Department Head
Department of Pure and Applied Chemistry
Visayas State University
Visca, Baybay City, Leyte

Dear Sir Tripole,

I hope this email finds you in good health. I am Mikhaela Anne Therese A. Bargamento. I graduated with a bachelor's degree in biotechnology with a major in industrial biotechnology. I am writing this letter to express my interest in the position of part time instructor at the Department of Pure and Applied Chemistry, Visayas State University.

During my undergraduate studies, my thesis focused on the field of bioinformatics. What genomic and protein sequence mutations of the different variants of the SARS-CoV-2 virus can cause fast transmission of the virus. I have a strong grasp of a variety of organic chemistry, biochemistry and biotechnological concepts and procedures thanks to my experience as a Science Research Assistant at the Advanced Research and Innovation Center. I understand the complexity and meticulous process of creating experiments, gathering data, and conducting research to improve understanding in the fields of biotechnology and biochemistry.

I have been invited as a resource speaker to impart knowledge on the applications of biotechnology. I also supported students in their thesis, especially in analyzing their samples and helping design their assay procedures, which has drawn me to teaching and mentorship. These experiences have strengthened my abilities for conveying challenging ideas in an understandable and interesting way, creating an atmosphere that encourages learning and development. It would be an honor to be part of supporting the university's commitment by

providing top-notch teaching and motivating the upcoming generation of future chemists. I appreciate your consideration of my application. Please see my attached resume and transcript of records for your reference.

Thank you so much for the opportunity, Sir Tripoli.

Respectfully yours,

Mikhaela Anne Therese A. Bargamento
