College of Management and Economics  
Visayas State University  
Visca, Baybay City, Leyte 6521

**Ms. Hannah Mae Quimbo:**

Greetings!

I am interested in working for the position of Tourism Management Instructor as posted on your Facebook page. I am a fresh graduate of the degree program of BS Tourism Management in Visayas State University main campus; and currently, I am taking an online TESDA course on Front Office Services and hoping to get a NCII certification by the end of this quarter. I am also aiming to enroll myself in master's degree as soon as I save up an enough amount of money needed to enroll for the said program.

I love learning, and I believe that it is a never-ending process. Hence, being part of your faculty is the perfect avenue for me to learn new ideas and concepts not just about the tourism industry but with other aspects as well. With this in mind, my passion in connecting with other people and love for the tourism industry can help the students in becoming a tourism professional they aspire to be.

I am equipped with some vital skills needed in the position I am applying for. During my college years, I served the student body and held different positions in the student council. I was able to represent our school in some competitions and different national and local seminars. Because of these, I was able to graduate with honors and was one of the top students in our department. Hence, I can also impart these experiences that I have gained to the students to help and motivate them in becoming the best version of themselves.

Moreover, I have enclosed my data sheet and other documents to support the information written in PDS. I'd be glad to have an opportunity to be part of the university's working force. For more concerns, my mobile number is 0998-231-6435, and my working email address is wcristillemadera24@gmail.com. I am hoping for your consideration of my application. Thank you!

**Sincerely,**

**Cristille M. Madera**
