

July 20, 2025

**Dr. Maria Juliet C. Ceniza**

Head  
Department of Pest Management  
Visayas State University  
Visca, Baybay City, Leyte

Dear Ma'am,

I would like to express my keen interest in the **Part-time Instructor** position of the Department of Pest Management.

I graduated with my Master's degree last January 2025 from Visayas State University, MS in Plant Pathology with a minor in Weed Science. I also graduated with honors in 2020 from the same institution with a bachelor's degree in Agriculture major in Plant Protection with specialization in Weed Science. I am excited about the opportunity to contribute to the academic community of the department.

My academic background and research experiences have equipped me with a strong foundation in Crop Protection. Recently, I was employed as a Science Research Assistant in National Abaca Research Center of Visayas State University, where I continue to expand my knowledge and expertise in research. Also, I was once hired as part-time instructor of the DPM, where I taught Principles in Crop Protection laboratory classes, which provided me with valuable teaching experience and enhanced my communication skills.

My educational background and professional experience have equipped me with the necessary qualifications and skills required for the position at DPM-VSU.

I am particularly drawn to the opportunity to join DPM as it will be an added experience, able to transit my passion of applying what I do best which would be beneficial to both the university and I growing together.

I would be thrilled if considered to bring my skills to DPM. I would welcome the opportunity to meet and discuss further any concerns you may have about me or application.

Thank you for considering my application.

Sincerely,

Delina Gerobise
