**LOURDES B. CANO**

Director  
Director for Admin. & Human Resource Devt. Office  
Visayas State University  
ViSCA, Baybay City, Leyte

Warm Greetings!

With formal background on the fundamental courses of the Agriculture curriculum, I am writing to express my interest in applying as an Agricultural Technician I at Visayas State University. I am very hopeful that such position is available knowing that I am not just capable of filling-in for the position, but I also am more than willing to be part in shaping and improving agricultural research and as well as development and extension in our country.

Having recently obtained my Bachelor's Degree in Agriculture major in Soil Science (BSA) with outstanding remarks at the Visayas State University (VSU), I wish to bring my knowledge, skills and commitment to excellence to the institute's trailblazing grounds. As an Agriculture graduate major in soil science, I was able to become knowledgeable not just in agricultural courses related to soil science, but also in the different fields of agriculture. A few of which includes knowledge on the fundamentals of crop science, crop physiology, mineral nutrition, and as well as field and laboratory experiences that are relevant to the crop science.

My education at VSU as well as my involvement as a member and a participant in the different trainings and seminars in and outside the university, also equipped me with the essential skills and attitude that are necessary for the job. It has developed me into being committed and passionate for work most especially when it comes to agricultural research, development and extension that may also make our community a better place to live in. With this said, I am hoping for your kind consideration on my application.

For additional details regarding my qualification and expertise, please review my attached resume or you can reach me through phone or via email. I look forward to hearing from you. Thank you and God bless.

Sincerely,

Ella Hazel B. Estrada
