Dr. Eusebio R. Lina Jr.
Head, Department of Mathematics
Visayas State University
Visca, Baybay City, Leyte

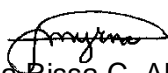

Dear Dr. Lina,

I'm writing to apply for a position as an instructor where I can give an engaging learning technique that motivates students to achieve their full potential while also honing my own abilities. I have heard from your office that you are looking for capable candidates for this position. I'm highly interested in assisting students in developing their skills so that they may show up and achieve their aspirations.

I finished my bachelor's degree in Secondary Education with Mathematics as field of specialization from Visayas State University – Main Campus, Visca Baybay City, Leyte. I graduated on June 15, 2018. I passed the Licensure Examinations for Teachers on September 2018. I have a teaching experience as substitute teacher in Can-ipa Elementary School from November 2019- March 2020 and as an ALS substitute teacher in Gabas Integrated School from October -December 2021. In addition, my experience as an instructor at the Visayas State University (Main Campus) boosted my teaching skills and my ability to provide varied strategies for each student's development.

My ability to operate well under pressure in a fast-paced educational atmosphere, as well as my strong initiative and great teaching skills. My instructional abilities, as well as my knowledge and skills, I believe, would substantially enhance your educational program. Thank you in advance for your consideration of my application. I hope to soon discuss with you to explore how my background and skills might help you achieve your program's objectives.

Sincerely yours,

Myrna Rissa C. Almonite
