

DR. EDGARDO E. TULIN

University President

Visayas State University

Sir:

Greetings of peace and prosperity!

I would like to express my intent to apply for Teacher 1 position in your respective school. I am confident that my abilities in instruction as well as being a good classroom and school manager combined with my skills in information technologies and other productivity tools would give a great contribution to your school.

My four years education in college greatly help me to develop my skills and give me a wide background of the teaching process. My college days didn't only gave me the knowledge about different concepts and theories in various fields, but also it helps me to learn how to utilize it for the progress of the learners.

I also participated in different activities and programs in our school for the past four years that enriches my personal skills that I know would greatly help me for the effectiveness of my teaching. Developing my professional attributes was also my outlook of being a professional teacher such as getting aware of the concern of the community where I belong. Working in a group has always been an exciting thing to me as I believe that strong collaboration can bring out the best in the people within a society.

Aside from teaching Mathematics, I hope to soon be teaching the value of collaboration and social interaction to your students in alignment to the mission of education and to the success of the learners in the future. I hope that you will consider this application

Should you have questions, please contact me at your convenience. You can reach me at 09473107966. Thank you for your time and consideration.

Sincerely,

Maria Niña Espina,

Applicant
