DR. CHARIS B. LIMBO-RIVERA

Director

Institute of Human Kinetics

Visayas State University

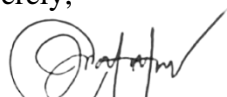

Dear Madam Cha,

I am conveying this letter to define my willingness to enter the world of teaching. I am passionate and avid when it comes to imparting knowledge. I graduated with a Bachelor of Secondary Education major in MAPEH (Music, Arts, Physical Education, and Health) and I finished my Master of Education major in Physical Education with a minor in English at Visayas State University. I am also a LET Passer of the September 2018 examination. Moreover, I am a National Certificate II (Food and Beverages Services) holder at the Palermo Hotel Institute of Tourism and Hospitality that solely aspires to teach Technology and Livelihood Education.

I can say that I possess all the attributes that a teacher should have, and some of my skills are dancing, sketching and designing. I am also a computer literate person who can embrace 21st-century learners. I will use my teaching strategies and classroom management, which made me one of the nominees for best practice teacher last 2018. Being a teacher is not just a profession to hold but also a big responsibility to take. That's why I am recalibrating myself to think rationally and logically when it comes to teaching as my profession. My specialization needs to be taught to students so that I will be given the chance to hone and unleash their potential to the utmost degree. I'm humbly asking for your benevolence and wholehearted support by allowing me to practice my profession in your institution. Together, we will bring the Institute of Human Kinetics to greater heights.

I am anticipating your affirmative response to this application. Should you have concerns, you may contact me on this line: 0918 737 5442.

Sincerely,

IRISH N. CATA CUTAN
