Thru: **MAY ANN E. PALEN**

Head, Department of Statistics
Visayas State University
Visca, Baybay City, Leyte

Dear Sir/Ma'am:

I am writing to express my interest in applying for the position of Assistant Professor II as advertised in your prestigious department, Department of Statistics, Visayas State University (VSU) Main Campus. I am currently waiting for my final grade of my Master's Thesis in the University of the Philippines – Los Baños for my graduate degree of MS in Statistics. I recently successfully defended my Master's Thesis last August 11, 2022. I had completed my Bachelor of Science in Statistics at VSU last 2015. I worked as a college part-time instructor for three semesters and two months at the Southern Leyte State University and taught math classes in senior high school. Being a fulltime graduate student in UPLB, through the CHED Kto12 scholarship program, I also worked as a part-time math tutor. I believe that the skills and experiences I have attained during these years makes me a suitable candidate for a position in your university to serve the school, the student, and the community.

In order to become an effective educator, one must know how to instill the love for science, enthusiasm to continuously learn, and passion to teach students. As an educator and a learner, I had the opportunity to be trained with the most renowned workforce of the university where I worked and studied before. Thus, enhanced my teaching techniques and instructional methods. Subsequently, I've also developed interpersonal, organizational, and time management skills that would add to my foundation working in an academia. I have devoted years learning about the science in statistics and its application aggregating the creation of maps not just for illustration but also the conversion of satellite map information into quantity to maximize data sources. This is the primary basis of the data in my Master Thesis. With my unique experiences on both parties, I am positive that these can help the VSU, particularly the Department of Statistics, in its drive for the center of excellence in statistics in the Visayas.

I have attached my resume and I'd be glad to have a chance to demonstrate my teaching skills. For further information of my application please don't hesitate to contact me through my mobile phone number, +63963-917-9128 and/or my email account, sgoriding@gmail.com.

Thank you for your consideration.

Sincerely,

Sweet Charish Goriding-Godinez
