REV RHIZZA L. AURE

Department Head
Department of Physics
Visayas State University
Visca, Baybay City, Leyte

Dear Ma'am/Sir,

Good day!

I am writing to express my strong interest in the instructor position teaching Physics and related fields at Visayas State University Main Campus. I have completed a teaching internship at Baybay National High School, where I handled Science subjects, primarily Physics for Grades 8, 9, and 10 under the Basic Education Curriculum (BEC). My experience also includes related topics in Biology, Chemistry, and Earth and Space Science. I was honored to receive the Student Teaching Proficiency Award for my efforts. With a passion for creating engaging and structured learning environments and a commitment to fostering student success, I am confident in my ability to contribute effectively to your school community.

As a STEM student at Visayas State University Integrated High School (SY: 2014-2020), and having recently graduated Cum Laude with a degree in Bachelor of Secondary Education majoring in Science, I have developed a diverse set of skills that enable me to create dynamic lesson plans, manage classrooms effectively, and differentiate instruction to meet the diverse needs of students. I am dedicated to fostering a positive and inclusive classroom culture where students feel supported, challenged, and motivated to reach their full potential.

I am excited about the opportunity to bring my enthusiasm for Physics and related fields to Visayas State University and to collaborate with colleagues to create a comprehensive and engaging curriculum.

Thank you for considering my application. I look forward to the opportunity to discuss how my experience and skills align with the needs of your university.

Sincerely,

JANNIEN DORA H. CABAHT
