To become a competitive computer programmer or software engineer.

Summary:  
Strong knowledge and skills in computer programming and system design.

Strengths:  
Team player.  
Fast Learner.

### Academic Projects:

1. C#.Net Windows Form Application: Mini Pacman Game

Language of Implementation: C#

Operating System: Windows 10

#### Description:

The programming language was based on the specification given by our instructor. It has the basic structure of programming languages like assignment, variable declaration, conditional statement, data type, loop statement, and mathematical operation.

The Mini Pacman Game is a 2D game created in Windows Form Application with IDE by Visual Studio 2015. It is an action maze chase video game.

2. Thesis: Development of a Short Messaging System (SMS) Broadcast Announcement for Visayas State University.

Language Implementation: C#

#### Description:

The system uses an open-source C# Library for rapid development. Using text messages, the student or VSU employee will easily get the announcements through SMS. It composes 2 users, The administrator and office staff, administrator manages the contacts while the office staff can't. Both users can send announcements directly to the student's or employee's mobile phone.
