## DR. RHEV RIZZA L. AURE

Head, Department of Physics  
Visayas State University – Main Campus  
Visca, Baybay City, Leyte

Dear Dr. Aure,

Greetings!

I am writing to express my interest in the Part-Time Instructor position at VSU Department of Physics, as recently posted. With a bachelor's degree in Civil Engineering and experience in teaching and instruction, also having been a part-time instructor in the department last midyear, I am eager to make a significant contribution to your educational team.

I am particularly drawn to the opportunity at VSU DPhys due to its commitment to quality education and instruction, astounding partnerships and extension activities, esteemed faculty and staff, and good working environment as I've experienced and witnessed in my short stay in the department. My teaching philosophy focuses on outcomes-based and student-centered instruction, which aligns well with your institution's approach. I am adept at creating engaging, inclusive, and informative lesson and approaches that cater to a diverse range of learning styles.

Currently, I am a Tactical Non-Commissioned Officer and Instructor at the VSU Department of Military Science and Tactics (VSU NSTP-ROTC), where I have gained substantial experience in methods of instruction. My role involves training cadets and cadet officers and perform administrative functions. It provided me with a profound understanding of innovative instruction, excellence in service, adaptability to change, interpersonal relationship and communication, academic integrity, professionalism, and service excellence.

I learned a lot from my previous experiences and the knowledge I gained with it. It gave me a broad view on coping with various obstacles, building strong relationships with coworkers and superiors, and broadening my skills and general development as a person. I am looking forward to experience working again in your department, particularly on how it assisted me in developing my profession while also providing proper public service and contributing effectively. I am enthusiastic about the possibility of bringing my expertise and passion for teaching to VSU Department of Physics as a Part-Time Instructor.

Thank you for considering my application. I am eager to contribute to the academic success of your students and the broader VSU DPhys community. More power!

Sincerely,

  
**Joemar V. Serot**
