PROF. ANATOLIO N. POLINAR

Head, Department of Forest Science

Visayas State University

Visca, Baybay City, Leyte

DEAR PROF. POLINAR:

As an experienced and dedicated college instructor, I sincerely desire to continue serving the Department of Forest Science at Visayas State University (VSU); hence I am applying again for a Part-time Instructor. I believe my over five (5) years of experience teaching forestry and related courses at the VSU is an asset to your department.

I am a Registered Professional Forester with over 13 years of relevant work experience. I was conferred a Master's degree in Forestry last August at the VSU. After receiving my BS in Forestry from Leyte State University (then ViSCA, now VSU) in 2003, I worked in research projects, the DENR, NGOs, and the academe. But my most rewarding experience has been teaching at the College of Forestry and Environmental Science, VSU.

I am an avid explorer of the functionalities of Microsoft Excel and the applications of GIS. As such, I have developed an Excel Model which predicts the possible genotypes and phenotypes outcomes of a hybrid crossing. The model has already been copyrighted, and I am confident it can be a learning tool in Forest Genetics. In addition, I was hired numerous times as part of consultancy work involving GPS surveying and GIS mapping.

Following the end of my teaching contract at VSU last February 1, I am enthused to continue teaching forestry courses. With my background and skillset, I am well prepared to dedicate myself to the highest learning standards at VSU. I look forward to discussing my qualifications in further detail.

Sincerely,

SAMUEL C. BERNALDEZ

Applicant
