Rotacio S. Gravoso
Vice President for Academic Affairs

Thru:

Honey Sofia V. Colis
Director, HRMO

Dear Ma'am,

Greetings of peace and prosperity!

It is with great delight to express my humble application as part-time instructor in your University. I believe that higher education is the most important stage of learning and growth of a person. I wish to render my service in your reputed institution in order to fulfill my goal as a public servant through teaching.

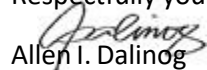

With my administrative and academic capabilities combined with my professionalism I believe I can contribute to the more successes of the university.

I completed my Bachelor's degree in Secondary Education with a specialization in Physical Science at Cebu Technological University in 2017. I am currently enrolled at University of Cebu Graduate School taking up Master's in Science Teaching major in Science. I have been affiliated with UC Main Campus since 2019 as a Science Laboratory Supervisor and part-time instructor handling science subjects at UC Main SHS department and General Education subjects at CAS.

Knowing that higher education is vital to young learners, I hope to encourage students to improve their inner strengths and abilities to discover their potentials. I wish to provide stimulating learning environment that motivates students to trust themselves and respect others. I aim to be one of the people who develops their confidence and teach them the values and discipline required to become successful individuals of their generation.

I have discovered that a student-centered lesson in which a teacher serves as a facilitator is the best teaching style. I realized that students learn best if we trust them to learn by themselves while providing them the guidance they need. I would like to devote my time guiding and facilitating students in the future. I know that this path is where I should be and that this passion will never cease. Through teaching in VSU I hope to instill love for learning and a longing for continuous learning within in each student, colleague and superior.

Respectfully yours,

Allen I. Dalinog
Applicant
