ENGR. EPIFANIA G. LORETO

Head, Department of Civil Engineering
Visayas State University – Main Campus
Visca, Baybay City, Leyte

Dear Prof. Loreto,

Greetings!

I am writing to express my interest in the Part-Time Instructor position at VSU Department of Civil Engineering, as recently posted. With a bachelor's degree in Civil Engineering and experience in teaching and instruction, also having been a part-time instructor at VSU Department of Physics, I am eager to make a significant contribution to your educational team.

I am particularly drawn to the opportunity at VSU DCE due to its commitment to quality education, training, and instruction in developing quality human resource, along with its esteemed faculty and staff. My teaching philosophy focuses on outcomes-based and student-centered instruction, which aligns well with your institution's approach as when I was a student at VSU DCE. I am adept at creating engaging, inclusive, and informative lesson and approaches that cater to a diverse range of learning styles.

Currently, I am a part-time instructor at the VSU Department of Physics, handling General and Engineering Physics courses. I am also a Tactical Non-Commissioned Officer and Instructor at the VSU Department of Military Science and Tactics (VSU NSTP-ROTC). With these experiences, I have gained substantial experience in methods of instruction. My role involves training and teaching college students along with some administrative functions. It provided me with a profound understanding of innovative instruction, excellence in service, adaptability to change, interpersonal relationship and communication, academic integrity, professionalism, and service excellence.

I learned a lot from my previous experiences and the knowledge I gained with it. It gave me a broad view on coping with various obstacles, building strong relationships with coworkers and superiors, and broadening my skills and general development as a person. I am looking forward to experience working in your department, particularly on how it assisted me in developing my profession while also providing proper public service and contributing effectively. I am enthusiastic about the possibility of bringing my expertise and passion for teaching as a Part-Time Instructor to one of the places that molded me professionally - the VSU Department of Civil Engineering.

Thank you for considering my application. I am eager to contribute to the academic success of your students and the broader VSU DCE community. More power!

Sincerely,

Joemar V. Serot
