Dr. Teofanes A. Patindol

ITEES Director
Institute of Tropical Ecology and Environmental Science
Visayas State University

Dear Dr. Patindol

I am pleased to be applying for the position of **Part-Time Instructor** at the Institute of Tropical Ecology and Environmental Science, my proud alma mater. As an Environmental Science graduate with academic training and field experience, I believe my background and dedication to environmental education will contribute meaningfully to the department.

Throughout my academic and research journey, I have been recognized for my diligence, clarity in scientific communication, and a strong work ethic in both field and classroom settings. I have engaged in interdisciplinary research and hands-on projects focusing on ecological conservation, sustainable resource management, and environmental fieldwork experiences that I believe can enrich the academic environment and support the department's instructional goals.

What draws me most to this opportunity is the chance to give back to the very institution that nurtured my foundational knowledge and critical thinking as an Environmental Science student. I am especially inspired by the department's continuous efforts in advancing localized research and producing graduates equipped to address pressing environmental issues. As someone familiar with both the culture and academic expectations of the Institute, I am confident in my ability to contribute effectively to teaching, mentoring, and curriculum delivery.

Enclosed is my resume for your review. I welcome the opportunity to further discuss how my background, values, and teaching commitment align with the department's goals. I would be grateful for the opportunity to discuss this further and would be happy to provide any additional information at your convenience. Thank you for considering my application.

Sincerely,

John Eduard Primer Parrilla
