**Mark Ryan Tripole**

Department Head

Department of Pure and Applied Chemistry

Visayas State University

Visca, Baybay, Leyte

**Dear Sir Mark,**

I am writing to express my sincere interest in a part-time Chemistry Instructor position in the Department of Pure and Applied Chemistry at Visayas State University. As a recent graduate of VSU with a degree in Bachelor of Science in Chemistry, I am enthusiastic about the opportunity to apply the knowledge, discipline, and dedication I have developed throughout my academic career and contribute to the department's academic mission and support student learning in the field of chemistry.

While I may not yet have a formal industry and academic teaching experience, I believe that throughout my undergraduate studies, I developed a solid foundation in chemistry, as well as hands-on experience in laboratory techniques, safety procedures, interpreting and analyzing data and scientific documentation. My on-the-job training further enhanced my skills in chemical analysis, research, and collaborative work. These experiences have equipped me with both the technical knowledge and the interpersonal skills necessary for effective teaching.

What draws me to Department of Pure and Applied in Chemistry at VSU is deeply rooted in the enriching experiences I had during my time in the department. I was particularly inspired by professionalism of Ma'am Quevedo, Sir Bandibas, and to you, Sir Tripole, I have long admired your bright minds, deep knowledge, and expertise in the field, which motivated me to pursue a career path aligned with DoPAC's vision. Being part of the department that shaped my academic journey feels both meaningful and fulfilling, and I am enthusiastic about the opportunity to contribute to and learn from such a dynamic team.

I am motivated, quick to adapt, passionate about education and eager to begin my career by sharing what I have learned with fellow learners. I am open to mentorship and professional development and committed to creating a work environment that is engaging, inclusive, and aligned with the department's standards of excellence.

Thank you very much for considering my application. I would welcome the opportunity to discuss how I can be of service to the department and contribute meaningfully as a part-time instructor.

Sincerely,

  
**Phobie Anne Pelon**
