HANNAH RISSAH F. ABAD

Department Head, Department of Physics
Visayas State University
Visca, Baybay City, Leyte

Dear Ms. Abad,

I am writing to express my keen interest in the position of Physics Instructor at the Visayas State University. Although I do not yet have formal teaching experience, my strong academic background in physics and my solid foundation in scientific research have equipped me with the knowledge, communication skills, and enthusiasm necessary to become an effective and inspiring instructor.

I hold a Master's degree in Physics from Mindanao State University – Iligan Institute of Technology. Through my research work, I developed not only technical expertise but also the ability to present complex concepts clearly, both in academic writing and in presentations to peers and interdisciplinary collaborators. Throughout my journey, I have mentored junior students in the lab and frequently collaborated on projects that required explaining intricate procedures in a clear and approachable way. These experiences have strengthened my interest in education and confirmed my desire to pursue a teaching career where I can inspire students and foster their curiosity in physics.

I am particularly excited about the opportunity to contribute to VSU's academic mission, and I am eager to apply my knowledge and research experience to develop engaging and thoughtful physics instruction. I am committed to continually learning and growing as an educator, and I am confident that my research background will bring a unique and practical perspective to the classroom.

Thank you for taking the time to consider my application. I would like to discuss further how my qualifications align with your needs. I am available for an interview at any time and can be reached via my email and mobile number, which are provided below. For additional details regarding my qualifications, please review the attached Personal data sheet. I look forward to your positive response.

Sincerely yours,
RYAN M. LUMOD
