Dr. Prose Ivy G. Yepes

University President

Visayas State University

Visca, Baybay City, Leyte

Thru: **Honey Sofia V. Colis**
Director, HRMO

Dear **Dr. Yepes**:

Greetings!

I was able to learn that the Department of Geodetic Engineering needs one (1) Assistant Professor III through the job posting posted on the VSU website. With this availability, I am interested and willing to apply for the position of Assistant Professor III of the said department.

I am Engr. Martin Jan E. Mercurio, a graduate of Master of Science in Geomatics Engineering (Applied Geodesy Specialization) from the University of the Philippines, Diliman last 2020. I obtained my bachelor's degree of Geodetic Engineering at the Visayas State university and a holder of Geodetic Engineer PRC license. Currently, I am connected to the Department of Geodetic Engineering of Visayas State University as the department head. I started my academic career as a faculty in the said University in 2014 as a part-time instructor and in 2016 as a regular faculty member. Throughout my academic career, I am engaged not limited to instruction, but also to conducting and attending relevant training courses, involved and conducted relevant research and extension activities, and able to establish linkages for the development of the geodetic engineering program. With the qualifications required posted in the hiring, I am confident that I am equipped and fit for the position.

I am willing to undergo a teaching demo and interview that the institution may conduct during my application. I can be reached through my email account martin.mercurio@vsu.edu.ph or thru my mobile number +63 968 569 1176.

Thank you very much and looking forward to my application.

Sincerely,

Martin Jan E. Mercurio
Applicant
