Magdalene C. Unajan
Department Head
Department of Computer Science and Technology
Visayas State University
ViSCA, Baybay, Leyte

Dear Ms. Unajan:

I am interested to re-apply for the Instructor I position. As an MS in Computer Science student, with enthusiasm for science, research, and technology, I am eager to share my passion for learning and my knowledge to contribute to the roadmap of the department and to complete the tasks assigned to me.

In my previous job, I understood the importance of adapting to the changing financial climate to deliver cost-efficient products without compromising the quality. On my recent employment in DCST (VSU), I realized the positive effect of understanding each student's varying capabilities in delivering the course requirements to effectively drive an inclusive learning process and to potentially inspire at least a few to incorporate their learnings in their academics and future employment.

Completing two semesters of the MS in Computer Science course in CIT-U, gave me deeper insights in driving efficiency in whole process of designing models and in programming, this complements with my prior knowledge in the business-side of software development, which the former is often unknowingly overlooked by IT graduates, including me. It is an exciting method in delivering Computer Science subjects in mathematical, programming, and business perspectives.

Also, I am openly and completely abashed with my rudimentary behavior regarding with the pandemic guidelines, but with the transitioning of the national government, has given a bit of hope that the economic plans of the new president will ease out the restrictions in the coming months providing inclusivity, to which, I also acknowledge the need for further personal and professional growth.

In relation to the job posting, I am hopeless but also enthusiastic to return to my service in the academe, so I can continue to share my knowledge, skills, and expertise to prepare the students and to help them earn the right skill set and attitude before graduating. Please email or call me to set up an interview. I look forward to hearing from you.

Sincerely,

Rodney M. Maniego Jr.
