## SHALOM GRACE SUGANO

Department Head  
VSU Integrated High School

Dear Ma'am Sugano,

Good day!

As a new graduate of the B Secondary Education program, the job posting for Faculty in your institution sparked my interest. I just finished my degree and the student teaching experience is still fresh in my mind and heart. Even with the stress and hardships brought upon by the course, and the current educational system, my drive and passion to help learners be better equipped to face life continues. With this goal in mind, I would love to grab the opportunity to be part of the VSU Integrated High School.

I spent the past months teaching mathematics to Grade 7 students, specifically on algebra. Beyond the lack of in-service experience, I have also participated in and implemented literacy programs and other socio-academic activities during my college years which helped me a lot on interacting with people, researching, and teaching.

I am excited to contribute my talents and proficiency with your institution. I would love to start my education career with you. If you have questions or if there are other information that I can provide, kindly let me know. Thank you for your time and I look forward to hearing more about this opportunity.

Sincerely,

ANDREY JAN GUBALLO

Attached in the *Documents* section of the VSU Jobs website is my *Certificate of Completion of Academic Requirements*, instead of my Diploma. The release of our diplomas is still in process. I hope you consider.
